

Annex #2

Market price of the materials to be purchased

	Name	Characteristics	Market Price (GEL)	Size unit
1	Mulch tape	So called woven fibers, black, anti-ultraviolet, coiled roll of not less than 120 grams / m ² ; dimensions: 120-160 cm * 50 meters or more. Other characteristics - according to manufacturer's specification.	2.30	Square meter
2	Middle pole -	Reinforced concrete, height - 230 - 260 cm, pole profile dimensions: within 60 - 80 mm X 60-80mm, frame - not less than 4 wires (5 - 6mm), concrete mark - not less than M400. Other characteristics - according to manufacturer's specification	7.50	Unit
3	Bearing pole	Reinforced-concrete, height - 230 - 260 cm, pole profile dimensions: within 70 - 90 mm X 70 90mm, frame - not less than 4 wires (5 - 6mm), concrete mark - not less than M400. Other characteristics - according to manufacturer's specification	9.50	Unit
4	Wire -	Galvanized wire, not less than 2,0 - 2,4 mm / special plastic	3.00/2.80	kg
5	Anchor Version 1.	Plate-form screwed anchor, Length - 70-120 cm, diameter - 20-30 cm. Thickness -14 -16 mm Other characteristics - according to the manufacturer's specification	18.00	Unit
6	Anchor Version 2.	Spiral anchor: length - 70-120 cm, thickness -14 -16 mm. Other characteristics - according to the manufacturer's specification	18.00	Unit
7	Braces	Rotary type, with adjustable stretching ability	7.00	Unit
